Thanks Ludwine – this will be fun working together!

Attached is the report on TTIP that focuses on the public health implications, and it can also be found at the link below:  
<http://www.ciel.org/reports/preempting-the-public-interest-how-ttip-will-limit-us-states-public-health-and-environmental-protections-sep-2015/>

The report is from CIEL – the Center for International Environmental Law – which is a great NGO that has been following this issue.

Warm regards to all!

**Subject:** CC group - draft report Carpi 2015 meeting

Dear all,

Please find attached the 'flash' minutes of the yesterday meeting of the chemicals control group.  
Please add what we have forgotten, comment where needed and send us the additional documents you mentioned at the meeting, before November 15th.

We will then send the amended report to the other chemical control group members that were not in Carpi this year.

Thanks for your enthusiastic participation  
Jenn, Ludwine
